Project

Country Club

Product and Location

Solera Solar Post Top Off-Grid
RP-SPT (comparable to 150W HID)

Cape Cod, MA

Situation

Country club featuring multiple golf courses and tennis facilities was in need of updated lighting. Existing lighting was comprised of natural gas lanterns which meant there was no electricity running to the poles. These lanterns were outdated, inefficient and dim. Residents and members feared for their safety due to inadequate lighting. The club searched for years for a solution.

Solution

Old gas lanterns were replaced with Solera Off-Grid Solar Post Top fixtures.

Results

The perfect blend of visual elegance and light output along with easy low-cost installation. Club members and residents now feel safer driving and walking around at night.

“

“These solar fixtures solved a major safety concern that our residents had. They look beautiful at night and we plan on installing more around the property”
