## Project

Unwelcoming Entrance – No More

## Product and Location

Solera Solar Off-Grid Display  
Light RP-SDL-20W-40K-BK-G1

Bella Luna HOA – Cocoa Beach, FL

## Situation

The HOA at Bella Luna wanted to bring attention and added safety to their main entrance, however there was no power available and trenching new wires was out of the question due to budget constraints.

## Solution

An off-grid solar display light was mounted at the base of the sign with the LED light engine angled up onto the surface. The solar panel is positioned to capture maximum sun throughout the day.

## Results

Amazing light output from a completely off-grid solar light will provide years of cost-free illumination to help enrich the entrance sign and surrounding landscaping. The area is now safer and more welcoming.

*wow...I am very impressed with  
the solar light, the output is  
amazingly bright*

*– Michael J. Hoffman  
CEO at Florida Bulb and Ballast*

## Distributor

Florida Bulb and Ballast  
Melbourne, FL

## Installer

Bella Luna HOA  
Cocoa Beach, FL
