## Spotlight on SUCCESS

### Project

Company Sign Illumination

### Product and Location

Solera Solar Flood Light Off-Grid  
RP-SFL-20W (comparable to 150W HID)

Platt Electric Supply, Woodinville, WA

### Situation

This particular Platt branch is located along a busy, but dark highway. Their company sign has never been lit and budget dollars only allowed for landscape lighting or the like.

### Solution

Platt branch employees easily installed a Solera flood light amongst the landscaping. The panel was orientated to collect maximum solar charge, while the LED light engine was directed towards the most visible side of the sign.

### Results

As the photo shows, a very well lit, company sign now proudly shows the Platt logo; all achieved with no trenching or wiring and no power consumption.

SOLERA OFF-GRID  
FLOOD LIGHT

*"the whole sign is absolutely glowing – no shadows or dark spots"*

– Dahlia Sloane  
Sales Rep  
Hallmarketing

*"we tucked the flood light into the landscaping and secured it to a block all in 5 minutes"*

– Anthony Asbury  
Manager  
Platt Electric Supply

### Distributor

Platt Electric Supply  
Woodinville, WA
