

↑ INCLUDES USB PORT SO LIGHT ENGINE CAN BE USED AS A POWER BANK

The Solera Solar Lighting Multifunctional Flood Light features a flexible design, the light engine can be used separately or connected to the solar panel.

- ▶ Perfect for transit stops, schools and garages.
- ▶ Two operating modes
 - CONSTANT BRIGHTNESS** Used when light engine is not connected with the solar panel. Can be set at 30% or 100% brightness.
 - MOTION SENSING** Used when light engine is connected to the solar panel. Automatically turns on to 100% when motion is detected (within 18 ft.) and then turns to 5% when no motion is detected. (Can also be set to run at 100% for 5 hours & then switch to above motions sensing mode.)
- ▶ Comparable to 70W HID.
- ▶ 9'10" cable between panel and light engine.
- ▶ PIR Sensor included.
- ▶ Battery indicator shows when the battery is at 25%, 50%, 75% and 100%.
- ▶ Li-Ion battery lasts at least 1500 charge cycles and is replaceable.
